

**LISTING OF CLAIMS**

Claims 1-53 cancelled

54. A composition comprising a therapeutically effective amount of trefoil factor family peptide, an effective amount of tamarind seed polysaccharide, a preservative, a buffer, and wherein said composition has a pH of from about 6 to 8.

55. The composition of claim 54 comprising about 0.5% sodium chloride, about 0.005% benzalkonium chloride, and about 0.6% of a borate buffer.

56. A method of preventing or treating dry eye in a person comprising topically administering to the eye of said person a composition comprising a therapeutically effective amount of trefoil factor family peptide, an effective amount of tamarind seed polysaccharide, a preservative, a buffer, and wherein said composition has a pH of from about 6 to 8.

57. The method of claim 11 wherein said composition comprises about 0.5% sodium chloride, about 0.005% benzalkonium chloride, and about 0.6% of a borate buffer.

58. A pharmaceutical product comprising a composition comprising a therapeutically effective amount of trefoil factor family peptide, an effective amount of tamarind seed polysaccharide, a preservative, a buffer, and wherein said composition has a pH of from about 6 to 8, wherein said composition is dispensed from a package suitable for ophthalmic use, wherein the use of the composition for the prevention or treatment of dry eye is indicated thereon.

59. The product of claim 20 wherein said composition comprises about 0.5% sodium chloride, about 0.005% benzalkonium chloride, and about 0.6% of a borate buffer.

60. An aqueous composition comprising a trefoil factor family peptide and cyclosporin A, wherein the concentration of cyclosporin A is 0.05%.

61. The composition of claim 60 comprising tamarind seed polysaccharide.
